Conference Overview

The conference brings together industry leaders, government stakeholders, transport professionals and innovators to discuss the future of South Africa's metered taxi industry.

It focuses on professionalisation, regulatory compliance, technology and innovation, while strengthening collaboration between the industry and government.

The conference aims to promote a safe, competitive, efficient and technologically progressive E-Meter Taxi industry through dialogue, partnerships and practical solutions.

Mr Bogosi Oupa Magano

Chairperson – South African Metered Taxi Forum (SAMTAF)

Mr Bogosi Oupa Magano is a respected transport industry leader with over 40 years of experience in the metered taxi, chauffeur, shuttle and tourism sectors. He has been instrumental in advocating for the modernisation, professionalisation and adoption of technology within the industry. As Chairperson of SAMTAF, he continues to champion innovation, safety, efficiency and public-private partnerships, while mentoring the next generation of transport leaders.

Dr. Ngaka Mosiane

is a Senior Researcher at the Gauteng City-Region Observatory, leading the Spatial Transformation theme. His expertise is in Urban Geography, focusing on transportation, mining landscapes, and historically displaced areas of the Gauteng City-Region, with extensive teaching experience across universities, colleges and high schools in South Africa.

Anthony

Is an Industrial Engineer (BSc Eng, Wits) and innovator at Waxd, passionate about turning complex ideas into practical solutions. He focuses on the future of transportation, working with Mobility-as-a-Service (MaaS) and Automated Fare Collection (AFC) systems to build smarter, more connected mobility ecosystems.

MS. MOLATELO FAITH RAPETSOA

PMP Non-Executive Director | Strategic Executive Leader | Scholar

is a distinguished executive leader and Non-Executive Director with over 23 years of extensive experience in transport systems, infrastructure development, and corporate governance. Her career is defined by a commitment to sustainable mobility, institutional resilience, and strategic financial oversight. Currently, Ms. Rapetsoa serves as the Chairperson of the Finance & Planning Committee at the Transport Authority for Gauteng (TAG), where she provides crucial strategic oversight on finance, planning, and enterprise risk management. As a PMP-certified professional and the Managing Director of Apex Infra Group, she is widely recognized for her proven ability to lead large-scale transport and infrastructure programs. Her academic foundation is equally robust; she holds a Bachelor of Technology in Civil Engineering and a Master's in Development Studies, providing her with a unique blend of technical engineering expertise and socio-economic development insight. Demonstrating a lifelong commitment to learning, Ms. Rapetsoa is currently further enhancing her expertise by pursuing a Master of Engineering in Transportation at the University of Cape Town

Amanda Rogaly

CEO - a South African claims management membership company that manages the legal and administrative process of Road Accident Fund (RAF) claims on behalf of its members following a motor vehicle accident.
An entrepreneur, brand strategist and business leader, Amanda has built and scaled consumer-focused businesses across communications, media, technology and value-added services.

As CEO of BYY Strategic Services, Amanda specializes in turning business ideas into tangible products and outcomes. Drawing on her expertise in leadership and business analysis, she works with teams to develop and scale a range of consumer-focused products, including Road Cover.
Amanda focuses on operational excellence, strategic partnerships and effective execution, working closely with teams from concept through to implementation. Her approach combines strategic thinking with hands-on leadership to develop products and businesses that respond to real-world needs

David Drummond

is a Chairman of E-Cabs, the largest provincial body representing e-hailing and metered taxis in the Western Cape, and serves on the EMT Working Group. A long-standing industry leader and former spokesperson and Vice Chair of the Western Cape Metered Taxi Council, he has been instrumental in reducing industry conflict, advocating for a unified council, and contributing to NLTA regulatory reform through parliamentary submissions.
